## Success of our clients and candidates is based on 4 factors

Success of our clients and candidates

Industry  
Competence

Trust /  
Relationship

Individual  
Consulting

International

20 years experience in:

- IT
- Automotive/Industrial
- Energy/Utilities
- Consulting
- Telecommunication
- Finance/Payment

Our mandates are handled personally by Eckhard Daub. This gives guarantee for a high quality standard from the project start until the end.

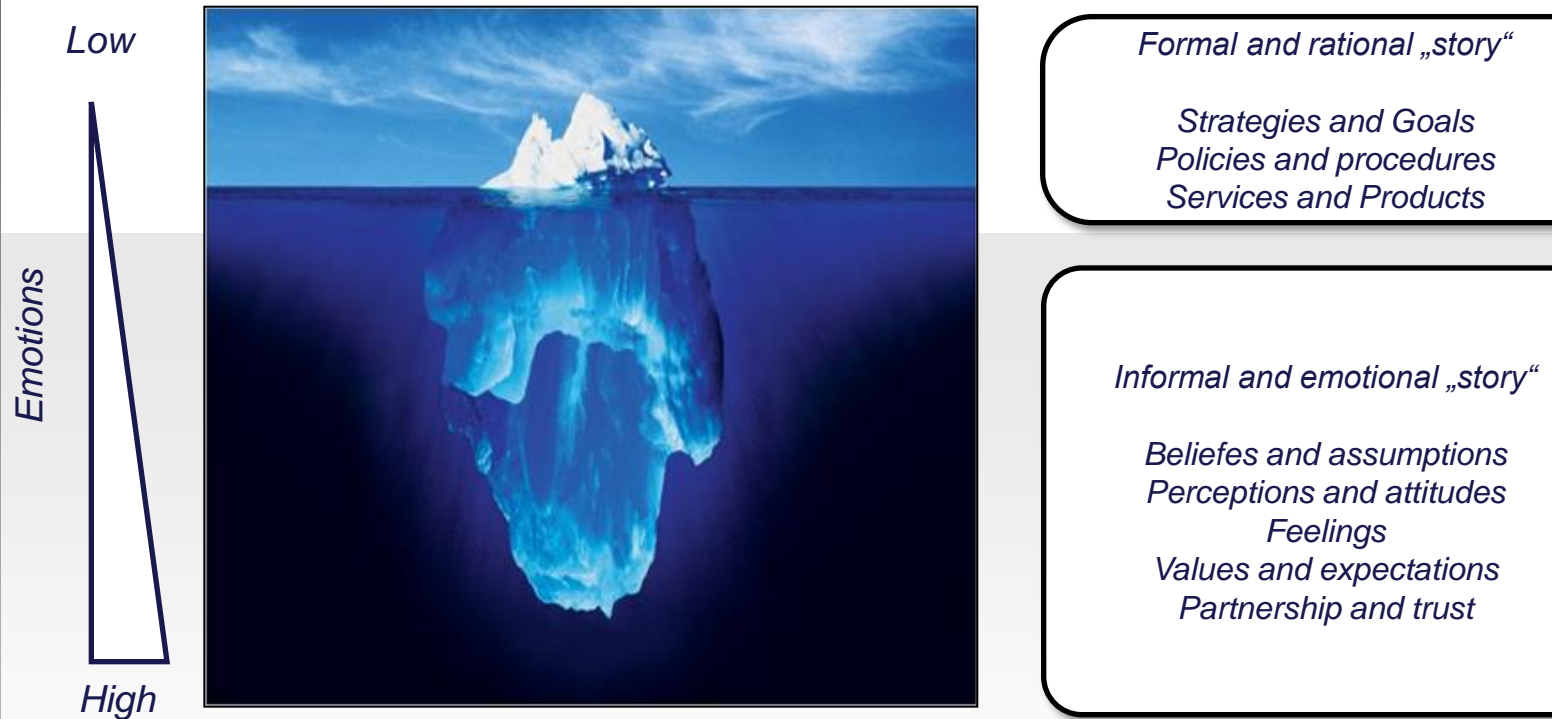

Every human is different but humankind will never change. Therefore our multilateral consulting concept ensures individual solutions to meet different requirements of our candidates.

Our experiences in national and international projects in combination with our strong and competitive network will guarantee the success of our customers. We know the differences!

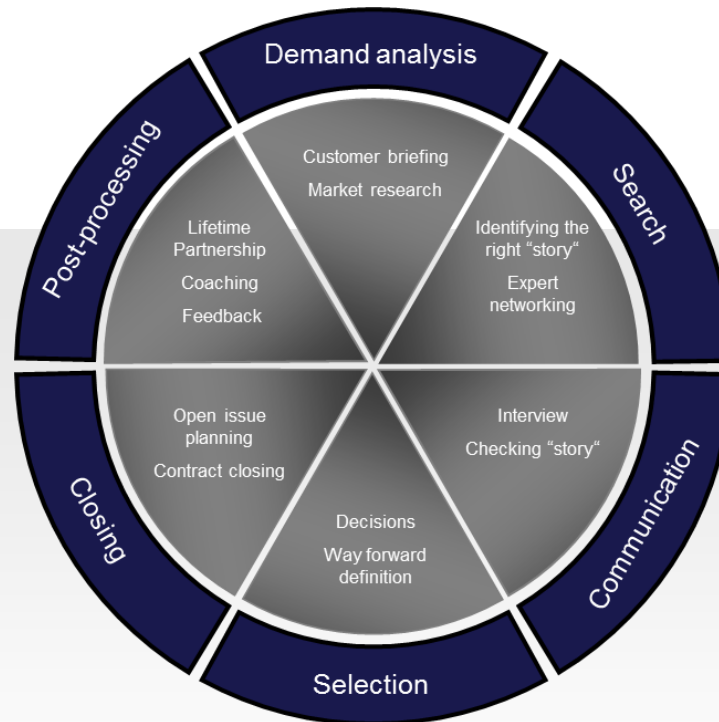

## The iceberg principle

*Our consulting is based on the iceberg principle. We show the whole picture, complicated assignments are solved individual based on the true „story“.*

## Our Process - The way of working

*Since 20 years we have maintained our international network with different key players from industry. Having up-to-date information about national/international markets, their trends and developments is our key success to find the best qualification according to our customer needs.*

## *Our customers*

*We have been working since 20 years together with international leading companies and our customers trust our discretion, therefore our reference list is not disclosed.*
